Move up with
ExamFX Next Level.

Introducing a Next Level from ExamFX.

Next Level provides continuing education courses that are designed to enhance professional development and expand your knowledge.

ExamFX Next Level features include:

- Online courses, simulated exams and certificate exams to be taken at your convenience.
- Courses include an easy “study by topic” outline, chapter quizzes with review that pulls the relevant content for each question, and practice questions.
- Courses contain case studies, needs analysis and more.
- Student enrolls and receives access to library of courses approved in his/her resident state.
- Certificates are available online in most states.
- Completions are electronically reported to the DOIs.
- Managers receive notifications, access students’ current CE course status and all records of completed ExamFX CE courses.

Select from the list to learn more about ExamFX Next Level courses available in your state.
